WEB DEVELOPER
Web Development ✦ Process Improvements

Accomplished, detail-oriented Front End Developer highly regarded for requirements gathering and development of websites to support business development initiatives at Huemor Designs and MedNet Technologies. Recognized as an analytical engineer with a proven track record of excelling at learning new technologies and successfully applying them to develop clean and well-structured code. Experienced at working on projects from initial idea and development phase (vision/analysis), performing all design/architecture work, and delivering the completed product. Known as a self-disciplined, highly organized professional with the ability to thrive in high-paced environments. Outstanding presentation and communication skills, and works exceptionally well within a team environment and individually.

SELECTED HIGHLIGHTS

- Built 10 custom, responsive websites for 10 clients at Huemor Designs, translating image documents into working code to ensure business requirements were met.
- Tested websites for cross-browser compatibility to confirm applications worked on all supported browsers.
- Installed plugins to suit client needs to enhance customer satisfaction and gain referrals.
- Helped new team members adapt to company processes and techniques.
- Played a key role in filling client web pages at MedNet Technologies to enhance corporate brand and website traffic.
